Total			N/A	0.00 / 0.00

Total: N/A (F)

Show All Details

Course assignments are not weighted.

☒ Calculate based only on graded assignments

You can view your grades based on What-If scores so that you know how grades will be affected by upcoming or resubmitted assignments. You can test scores for an assignment that already includes a score, or an assignment that has yet to be graded.

Part B – Communication, Materials, Readiness and Active Learning

I confirm that confirm that I will check in Canvas and I will check my SFSU email very often and before each class meeting for updates from my graders, my classmates, and my course instructor.

I confirm that besides using Canvas, I will utilize the File Manager. I will have the shared packages and other shared materials ready and open before each class meeting. The URL to the File manager is listed on the Home page. On the File Manager, the packages are hosted under the directory ClassMeeting-PACKAGES.

I confirm that I will process all the new materials posted on the File Manager, especially those which are posted under the directory ClassMeeting-PACKAGES before each class meeting.

Question- Please include a screenshot of the directory ClassMeeting-PACKAGES in the assignment report.

CSC220/ClassMeeting-PACKAGES:

IDX	FILE NAME	TYPE	SIZE	LAST MODIFIED	PERMS
1	PKG01.sealedClasses_JDK15Year2020.pdf	File	0.20 MB	22:08 08-18-22	604
2	PKG01_JavaReview.pdf	File	0.53 MB	22:08 08-18-22	604
3	PKG02_ArrayListStringBuilder_DateAndTime_ExceptionHandling_ANSIColors_FileIO.pdf	File	0.23 MB	22:08 08-18-22	604

Part C – Canvas Features

Option 1

Question: What are the 5 Canvas features you think are most useful for our class? Please use at least 1 sentence to describe each of them.

5 canvas features I think are most useful for our class –

- 1)Home -which allows students to see updates, classroom and office hours location from professors.
- 2)Announcements – which allows students to see professors messages without needing to check outlook gmail.
- 3)Assignments – allows students to submit assignments
- 4)Discussions – allows students to interact with each other
- 5)Grades – allows students to see their grades

Question: If Canvas hires you to improve the application, please describe in detail 1 new feature you will add to Canvas.

I would add projects/outside work features so that when students submit their leetcode problem or projects, professors can see them and make some suggestions on them.
